

# Import your Program Policies & Access the MentorCity Terms of Use/Privacy Policies

- [Context](#)
- [Steps](#)

## Context

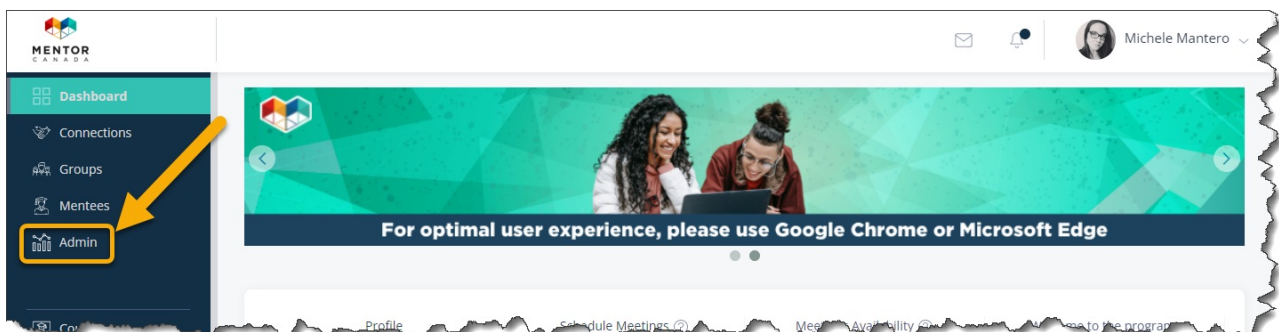

Before onboarding mentors and mentees onto the virtual mentoring platform, it is important to add your program policies. These policies, along with the MentorCity Terms of Use and Privacy Policy, will be presented to all new users during their initial login. New users must carefully review and agree to the program policies and MentorCity terms of use to ensure compliance and continue using the platform for virtual mentoring.

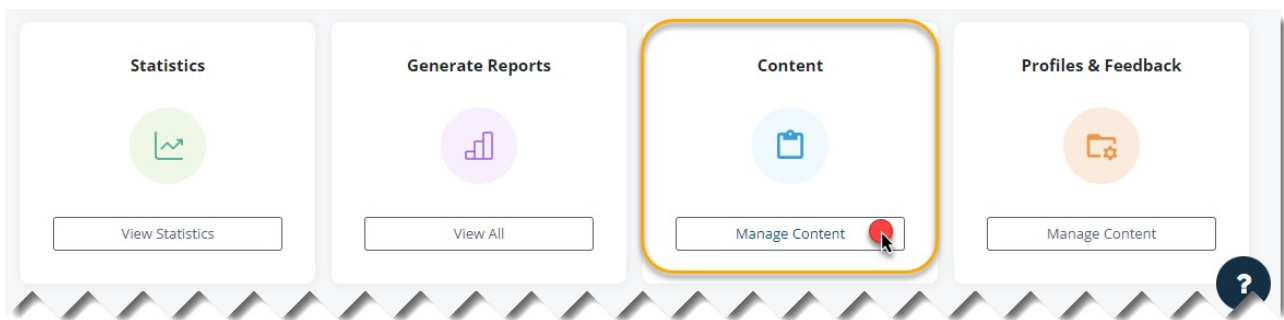

This training article will guide you through the process of importing program policies and emphasize the importance of completing this step before onboarding mentors and mentees. By proactively addressing these policies, you can establish a secure and conducive environment for effective virtual mentoring. Let's explore the necessary steps and considerations in implementing program policies on the virtual mentoring platform.

## Steps

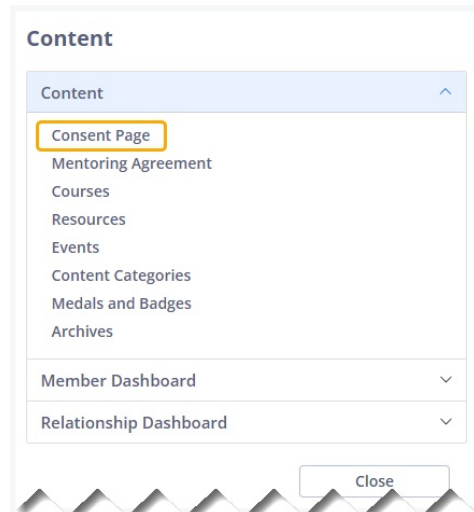

1. Click on the "Admin" tab on the left-hand side of the page.

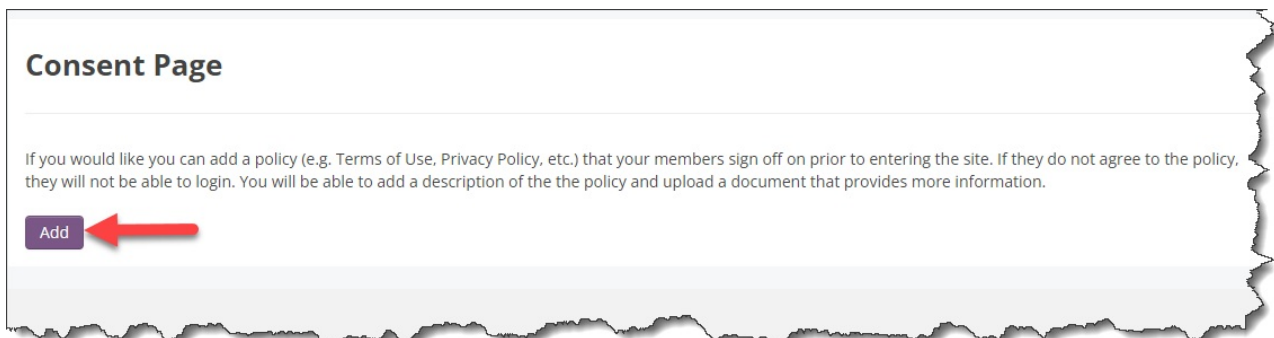

2. From the administrator dashboard, navigate to the "Content" tile located on the third row, and click on "Manage Content" to access the corresponding section.

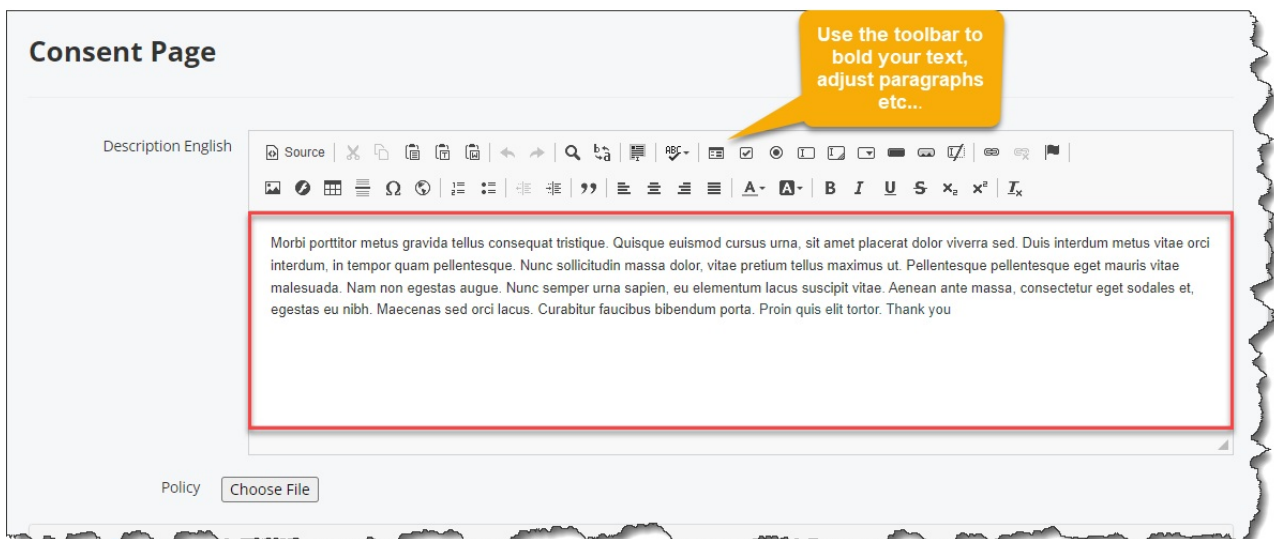

2.1 A new dialog box will appear. Click on "Consent Page" within the box.

3. Click on **Add**.

4. Add your program policies to the body of the "Description" box.

5. You can also add a PDF copy of your policy by clicking on **Choose File**. This will allow mentors and mentees to save a copy of your policies.

## New Company Policy
